Skype: cousinzodin

OBJECTIVE

Join a well-established company that elevates the employee experience. I'm in for a long haul if your company have a positive culture and can offer access to constant learning. Dream job is all about making a positive contribution and creation of new memorable products with accessibility in mind.

SKILLS

JavaScript (Vue.js, React, TypeScript)

Proficient in **HTML5/CSS3** (semantic, standards-compliant code, mobile-first approach, cross browser compatibility, responsive, retina-friendly layouts, BEM methodology, Sass);

Also: Git, Gulp;

Design software: Zeplin, Adobe Photoshop.

LANGUAGES

Russian: native

English: upper-intermediate

EXPERIENCE

Jan 2018 - Jul 2019 | Front-End Developer

StreamTech.Ltd (startup)

- Maintain front end code for SPAs, develop new features and integrations;
- Web-Application improvements (Google PageSpeed, etc);
- Research appropriate technologies for a given project;
- Participate in requirements and design reviews;

Jul 2017 - Dec 2018 | HTML-Coder

StreamTech.Ltd (startup)

Promoted & rewarded as employee of the year 2018.

This work raised a challenge to work efficiently without supervision in turbulent and uncertain times & adapt on the fly to competing demands. As a benefit I boosted my peripheral IT-industry knowledge thanks to close work with not only Back-End developers and Business Management, but Data Analysis team & Designers. And more so from "closing gaps" when we had to manage without some dedicated experts.

- Create templates for Vue.js applications (occasionally for Angular), emails, landing pages;
- Resolve browser compatibility issues, etc;
- Asset Management (optimizing web-fonts, video, audio, images);
- CSS/SVG animations.

EDUCATION

React & Vue.js courses (by Schwarzmüller) | Udemy

JavaScript advanced & basic | HTML Academy

HTML & CSS advanced & basic | HTML Academy

Master of Culturology | Southern Federal University, Russia.

HOBBIES

Reading, hiking, mixology, translations from English. Interested in science fiction, and managed several fan groups in social-media in the past.
